IMPORTANT SAFETY INSTRUCTIONS

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean the contaminated area on the product surface with a soft, dry cloth or a damp cloth. (Do not use a detergent or cosmetic products that contain alcohol, solvents or surfactants or oil constituents as they may deform or cause damage to the product.)
7. Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

WARNING

TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE. DO NOT INSERT ANY METALLIC OBJECT THROUGH THE VENTILATION GRILLS OR OTHER OPENINGS ON THE EQUIPMENT.

Apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

CAUTION

EXPLANATION OF GRAPHICAL SYMBOLS

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.
Please read the following recommended safety precautions carefully.
- Do not place this apparatus on an uneven surface.
- Do not install on a surface where it is exposed to direct sunlight, near heating equipment or heavy cold area.
- Do not place this apparatus near conductive material.
- Do not attempt to service this apparatus yourself.
- Do not place a glass of water on the product.
- Do not install near any magnetic sources.
- Do not block any ventilation openings.
- Do not place heavy items on the product.
- Please wear protective gloves when installing/removing the camera. The high temperature of the product surface may cause a burn.

User’s Manual is a guidance book for how to use the products. The meaning of the symbols are shown below.
- Reference : In case of providing information for helping of product’s usages
- Notice : If there's any possibility to occur any damages for the goods and human caused by not following the instruction

※ Please read this manual for the safety before using of goods and keep it in the safe place.

KEY FEATURES

The SPC-7000 network controller controls network cameras and the SSM program using the network. It provides a user-friendly interface with onscreen menu, touch screen and joystick.

- Long-distance remote control
- Integrated system control
- A single network controller can control both the network camera (receiver unit) and the SSM program.
- You can control both the network camera and NVR via the SSM.
- For the user’s convenience, the positions of the joystick and jog shuttle module can be switched between left and right.

User-friendly interface
The operation status of the system control is displayed on the screen; the touch-screen enables you to select a menu with ease; the joystick makes your control simple and easy.

❖ List of controllable products and programs
- Our network camera products that support the SUNAPI protocol
- SSM v1.5

WHAT’S INCLUDED

Unpack the product package and place the product on the floor or a flat surface. Check if the following components are all included in the product package.

- Main Unit
- User Manual or User Manual CD
- Power Adaptor
- Power Cable
- USB Cable
- Touch Pen

Connect the jog shuttle and the joystick to the main body to use them.
## PART NAMES AND FUNCTIONS

### Front Side

</tr>
</tbody>
</table>

### PTZ control

- **[PRESET]** When you click a [PRESET] + number + [PRESET] button, the preset corresponding to each button number is activated.
- **[GROUP]** When you click a [GROUP] + number + [GROUP] button, Group/Scan corresponding to each button number is activated.
- **[TRACE]** When you click a [TRACE] + number + [TRACE] button, Pattern/Trace corresponding to each button number is activated.
- **[ZOOM] +** Runs the zoom in motion.
- **[ZOOM] +** Runs the zoom out motion.

### Mouse control

- **[L(T. LOCK)]/[R(TRACK)]** Uses the left/right button of the mouse in mouse mode.

### Screen control

- **[MON.(CON.)]** You can change the multi monitor selection by clicking a number + [MON.(CON.)] button in the screen mode (previous/next according to the monitor number).
- **[LAYOUT(SEQ.)]** When you click a number + [LAYOUT (SEQ.)] button, the layout corresponding to each button number is activated.
- **[CAM]** When you click a number + [CAM] button, the camera corresponding to each button number is activated.
- **[ENTER]** Clicking once will display a single screen on the live viewer. Clicking once again will return to the original screen.
- **number + [TILE(VM)]** Moves to the tile corresponding to the number.
## Overview

### Item Description

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
</table>
| 1 | **SSM**  
Terminal that is connected to the PC to control the SSM. |
| 2 | **USB**  
Used for backup of the system controller settings or upgrading the firmware. |
| 3 | **NETWORK**  
Network connection terminal. |
| 4 | **DC 12V**  
DC 12V input port (− → ← +) |
| 5 | **Cable Hook**  
To prevent the power cable from being loose.  
Be sure to use the cable hook when installing and using the controller. |

### Rear Side

#### Mode Change
- **[PTZ[MENU]]**  
Changes the PTZ mode.  
Click the [PTZ (MENU)] button while in PTZ mode and the screen mode will be changed.
- **[SHIFT] + [MENU(Mouse)]**  
Changes the mouse mode.  
Click the [SHIFT] + [MENU (Mouse)] buttons while in mouse mode and the screen mode will be switched.
- **[SHIFT] + [Mon.(Con.)]**  
Changes the console mode.
- **[SHIFT] + [TILE(VM)]**  
Runs the VMD control.

#### Play Screen Control
- **[SEARCH]**  
Outputs the video of the current tile through live/search.
-  
The video will be stopped.
-  
Plays and pauses the video.
-  
Starts/Ends manual recording of the video.
- **Shuttle wheel**  
Fast plays in the forward direction when the wheel is turned clockwise, or fast plays in the reverse direction when the wheel is turned counter-clockwise.
- **Jog wheel**  
Performs frame search.
- **0 ~ 9**  
Button to input a number.
- **[ESC(SETUP)]**  
Returns to the previous page.
installation

PRECAUTIONS

Before you install the product, read through and comply with the following instructions.

• The product is designed for indoor use only.
• Keep it away from water or moisture.
• Do not put excessive force on it.
• Do not pull out the power cable forcibly.
• Do not dismantle it at your own.
• Use only the rated I/O range.
• Use only the provided power cable.
• Use the power plug containing the earth wire if available.
• Install the system controller on a flat table.
• The layout of the main unit and the wiring system are critical for a proper system operation.
• If the devices are too close with each other or in a poor-ventilating environment, the system may not work properly.
• Inaccessibility to the system makes the repair difficult or even impossible.
• To prevent a system failure or to reduce the system shutdown, make enough room for ventilation and close the cover firmly.
• Do not dismantle the system controller at will as a high voltage runs inside the system controller.
  - Operation Temperature : 0°C ~ 40°C
  - Storage Temperature : -20°C ~ 60°C
  - Operation Humidity : 20%~85% RH
  - Power Consumption : DC 12V, Max 6.4W (±)
  - Use the dedicated power adapter provided with the product.

BEFORE INSTALLATION

• You must turn off the product before installing it.
• A severe impact or vibration may cause a system failure.
• Keep it away from a strong magnetic field or electric interference, or wireless devices such as radio or TV set.
• Keep the installation site clean and dust-free all the time while or after you have installed the product.
• Place it on an unsealed, flat surface at an optimal temperature.
• Install it at least 15cm away from the wall.
• Do not close the ventilation hole or put a conductive object in it.
• Do not expose it to the direct sunlight. Keep the accessories or tools out of people’s reach in an attempt to prevent a risk of physical damage.
• Leaving an abnormal smoke or smell as it is may lead to a fire or electric shock.
• If this is the case, turn off the product immediately and contact us for a technical assistance.
• Take an appropriate action if you find: damp floor, unearthed power extension cord, peeled-off power cable, or absence of safety grounding.

⚠ Use a dry cloth to wipe it out. If badly dirty or stained, use a cloth soaked into neutral detergent to wipe it out.
Do not use volatile solvents such as alcohol, benzene or thinner that may damage the product surface.
Do not use at a high temperature, as this will shorten the useful life of the LCD monitor.
installation

ASSEMBLE JOG SHUTTLE/JOYSTICK

When assembling the jog shuttle or joystick, press it until you hear a clicking sound.

ADJUST LCD SCREEN ANGLE

You can pull the screen forward for a better view.

SWITCHING THE LAYOUT OF JOYSTICK AND JOG SHUTTLE

For convenience you can switch the position of joystick and jog shuttle module.

- To switch between left and right, turn off the system controller and switch the modules manually. Or, press <Change Module> in the controller setup menu and switch the modules manually. (page 14)

1. Press the hook at the bottom of the controller body with two hands and the module will be detached from the main body.
2. Remove both joystick and jog shuttle modules from the controller and switch the position. When done, insert them until you hear a click.
configure settings

INSTALL

1. With the computer turned on, connect the SSM terminal of the controller to the USB port of the computer.

2. A window will open that says A new device has been detected.

3. Your computer will automatically recognize the device.
   - Install the device by following the instructions provided in the installation window, if necessary.

4. When the device is recognized, the controllers installed will be displayed on the game controller list in the Windows control panel.
   - [Start] > [Devices and Printers] > [Game Controllers]

To correct the controller
   - To use a controller properly, the axis needs to be corrected.

1. Move to [Start] > [Devices and Printers] > [Game Controllers], right-click on the controller installed and select [Properties].

2. In the settings window, press the [Calibrate...] button to run the 'Device Correction Wizard'.

3. Proceed with the axis correction by following the instructions on the screen.

GETTING STARTED

1. Turn on all system component devices.

2. Connect the power adapter on the back of the controller and turn it on. A login window will open.

3. Using the numeric key or the touchscreen keyboard, enter the password. Click the <Login> button.
   - The default password is "4321".

4. When you first log in, a window will open, prompting you to set a password. Set your password and press the <OK> button.
   - New Password: Enter a new password, following the password setting rules.
   - Password Confirm: Enter the new password again.
configure settings

CONFIGURE MENU

When the system settings screen appears, select your desired settings item.

 DEVICE

To register a device automatically
You can search for and register a network camera connected to the local network.

1. Select the <Automatic registration> check box and press the <OK> button.

2. From the list of cameras that your search returns, select a camera you want to register and press the <TEST> button.

3. Enter an <ID> and <Password> and press the <TEST> button to access the camera.

4. Press the <OK> button and the selected camera will be registered.
   - Model: Shows the camera model name.
   - IP address: Shows the IP address of a network camera.
   - Status: Displays Success or error code guide information.

To register a device manually
1. Select the <Manual registration> check box and press the <OK> button.

2. Enter the IP address information.

3. Press the <ID/PW> button to enter an ID, password and port number.

4. Press the <TEST> button to access the camera.

5. Check the test results.

6. Press the <OK> button to complete the registration.
Modify Device Information
You can modify the information of a registered device.

1. Select a device to change the information.
2. In the device information section displayed at the bottom of the screen, modify the device information.
3. After you finish changing the device information, press the <OK> button.

Delete Devices
1. Select a device to delete and press the <Delete> button.
2. The selected device will be deleted.
3. Press the <Delete All> button and all registered devices will be deleted.

User & Password
You can change the administrator's password and grant a device ID.

To add a user
1. Select <User & Password> from the menu.
2. Click the <Add> button.
3. Select a device to assign to the user.
4. Select whether to use a password.
5. To use a password, press <ON> and set a password to use.
6. After setting a password, press the <OK> button.

If the password does not conform to the password policy, you will need to select a password that meets the password requirements.

To modify user information
You can change the password on the user information page.

1. Select a user whose information you want to modify and press the <Modify> button.
2. Enter a new password to use.
   - Only an "admin" can change the password.

To delete a user
You can select and delete a registered user.

1. Select a user and press the <Delete> button.
2. Press the <Delete All> button and all registered users will be deleted.
**Configure Settings**

**Joystick Button Operation**

The joystick button is operated only by the <Enter> function.

**Change Module**

You can switch the position between jog shuttle and joystick from left to right or vice versa.

1. Select the <Change Module> menu.
2. You can confirm that the power is turned off and switch the position of the jog shuttle using the joystick.
3. Check the current setting, press <Cancel>.

**Network**

Configures the network connection type and environment.

- **IP type**: Selects the type of network connection.
- **IP address**: Subnet, Gateway, DNS
  - If connection is <Static>: You can enter the IP address, subnet, gateway and DNS directly.
  - If connection is <DHCP>: IP address, subnet and gateway are configured automatically.

- If you set the DNS mode manually, you can enter the DNS IP information directly.

**SYSTEM ENVIRONMENT**

You can update the current firmware using the firmware files in the USB memory.

**To update the controller firmware**

You can download the latest firmware files and update the controller.

1. Connect a USB memory device on which new firmware is stored to the network controller.
2. From the menu setup screen, press <System>.
3. Press <Update firmware>.
4. In the Update window, press the <OK> button.
5. Wait until the system restarts after the update.

- Do not disconnect the USB memory or power cable during the update. Otherwise, it may fail to update the firmware or cause a system failure.

**Factory Reset**

You can return the current settings to the factory default.

1. Press <Factory Reset>.
2. Press <Reset>.
   - The current settings will return to the factory default.
3. To exit the menu, press <Cancel>.
To backup the controller settings

If you want to change the controller or replace the camera, you can save the settings of the controller as a file and load the controller settings into a new camera.

1. From the menu setup screen, press <System>.
2. Press <Save configuration information>.
3. Press <OK>.
   The backup process begins.

   - Do not disconnect the USB memory or power cable during the backup. Otherwise, it may fail to backup the controller settings.

To restore the controller settings

If you have set the controller improperly or reset it, you can upload the current settings to a different controller.

1. From the menu setup screen, press <System>.
2. Press <Import configuration information>.
3. Press <OK>.
   The restoration process begins.

   - Do not disconnect the USB memory or power cable during the restoration. Otherwise, it may fail to restore the controller settings.
CONTROL CAMERAS
You can configure a camera, storage device and settings menu.

- If the version of SUNAPI of a network camera registered, a specific function may not work.

Enter Camera Control Mode
Select <Camera> on the main screen.

Select a Camera
Using the direction keys, move to your desired camera on the list of registered cameras, and press the [ENTER] key.
Using the direction keys, move to the <OK> button and press the [ENTER] key.
- You can activate a camera by clicking a number + [CAM] key.

PAN/TILT Control
In PTZ mode, you can control the PAN and TILT motion by moving the joystick of the controller up, down, left and right.
The farther from the center of the joystick is, the faster the moving speed becomes.

ZOOM
In PTZ mode, you can control the camera’s Zoom IN/OUT motion using a controller.

FOCUS
Using a controller, you can control the Focus Near/Far motion.

IRIS
Using a controller, you can adjust the brightness of a camera video.
- Network cameras are not supported.

Control Cameras
Press the [AF] key on the controller and the camera autofocus will be activated.

- For more information about the camera control, refer to the “Part Names And Functions” section. (page 7~8)

Preset
You can set a single designated point and move the camera to the designated position.
- You can designate up to 255 presets.
- You can also activate a preset by clicking a [Preset] + number + [Preset] button.

To set a preset
1. Select a camera that you want to set a preset for.
2. Use the joystick to move the camera to a desired point.
3. Set the preset name.
4. Press the <OK> button to save.

To execute the preset
1. Select a camera.
2. Press the [PRESET] button.
3. With the numeric keys, press a number to execute and press the [PRESET] button.
4. The preset will be executed.
Group
You can make a group of multiple presets before calling them in sequence.
- You can designate up to 6 groups.
- A single group can contain up to 128 presets.

To set a group
1. Select the <Group> menu.
2. From the group list, select an individual list and press the <Settings> button to move to the settings page.
3. Press the <Add> button.
4. From the preset list, select a preset to add to the group.
5. Specify the speed and dwell time.
6. Press the <OK> button to save.

To execute the group function
1. Select the <Group> menu.
2. Select a group from the group list.
3. Select a group number and press Start.
4. The group function will be executed.

Tour
You can make a tour of at least one group before executing the groups in sequence.

To set a tour
1. Select the <Tour> menu.
2. Press the <Add> button to move to the Select Group page.
   - You can add up to 6 groups.
3. Select a group from the group list.
4. Enter a time to stay.
5. Press the <OK> button to save.

To execute the tour function
1. Select the <Tour> menu.
2. Select a group number and press Start.
3. The tour function will be executed.

Reset
Press the <Reset All> button and the settings of entire tours will be reset.
Swing
You can move the camera between two preset points to monitor the course.

Swing setup
1. Select the <Swing> menu.
2. Select the [PRESET] button for a type to set (PAN, PAN/TILT or TILT).
3. Set a start preset and an end preset.
4. Set a speed and switch time.
5. Press the <OK> button to save.

To execute the swing
1. Select the <Swing> menu.
2. Press the <Start> button of a swing to execute (PAN, PAN/TILT or TILT).
3. The swing function will be executed.

Trace
With the joystick or camera buttons, you can instruct the controller to record the camera movement for a specific time and repeat the movement.

To set a trace
1. Select the <Trace> menu.
2. From the trace list, select an individual item and click the <Settings> button.
3. Using the joystick or camera control buttons, control the motion of a camera to save settings.
4. Press the <Stop> button and settings will be completed.

To execute a trace
1. Select the <Trace> menu.
2. Select the number of a trace to execute.
3. Press the <Start> button.
4. The trace function will be executed.
Auto Tracking
You can select whether to enable/disable the auto tracking function of a camera that supports this function.

Alarm Output
You can turn the forced alarm output ON/OFF.
- If you don’t have the proper user authority, synchronization with the camera may fail.

PTZ Control
If you want to control PTZ with the joystick, turn this function ON, otherwise, turn it OFF.

Camera Screen Capture
When you press the <Screenshot> button, a camera screenshot will be saved to the USB memory stick.

Detailed Camera Information
Press the <Information> button and detailed camera information will be displayed.

CONTROL STORAGE DEVICES
As functions vary depending on the device, please refer to the user manual for the device.

SSM
You can control the storage devices registered in the SSM by selecting the SSM.
- When you select the SSM, the camera will run in SSM mode.

Select a Mode
SSM Mode
Select the <SSM>.
You can control the SSM and devices registered in the SSM.
- Controls the SSM regardless of the GUI control.
- For detailed information about how to use the SSM program, please refer to the user manual.

**[TRACE]**
- When you click a number + [TRACE] button, Pattern/Trace corresponding to each button number is activated.

**[ZOOM] + **
- Runs the zoom in motion.
- **[ZOOM] + **
- Runs the zoom out motion.

### Mouse control

**[L.(T. LOCK)]/[R.(TRACK)]**
- Uses the left/right button of the mouse in mouse mode.

### Screen control

**[MON.(CON.)]**
- You can change the multi monitor selection by clicking a number + [MON.(CON.)] button in the screen mode (previous/next according to the monitor number).

**[LAYOUT(SEQ.)]**
- When you click a number + [LAYOUT (SEQ.)] button, the layout corresponding to each button number is activated.

**[CAM]**
- When you click a number + [CAM] button, the camera corresponding to each button number is activated.

**[ENTER]**
- Clicking once will display a single screen on the live viewer.
- Clicking once again will return to the original screen.

**LCD SnapShot Button**
- Captures the video of the current tile.

**LCD UI Alarm Off Button**
- Initializes the event.

**number + [TILE(VM)]**
- Moves to the tile corresponding to the number.

### Mode Change

**[PTZ(MENU)]**
- Changes the PTZ mode.
- Click the [PTZ (MENU)] button while in PTZ mode and the screen mode will be changed.

**[SHIFT] + [MENU(Mouse)]**
- Changes the mouse mode.
- Click the [SHIFT] + [MENU (Mouse)] buttons while in mouse mode and the screen mode will be switched.

**[SHIFT] + [Mon.(Con.)]**
- Changes the console mode.

**[SHIFT] + [TILE(VM)]**
- Runs the VMD control.

- The reset function is only available in SSM mode.

### GUI Control Mode
1. Press [SHIFT], [RECORDER/SSM].
2. Select <Console>, <Virtual Mode>.
   - If you select either console or virtual mode, configurable sub functions will be enabled.
   - **Device ID**: Disabled when controlling the SSM
   - **Monitor ID**: Press a number + [MON.CON.] key.
   - **Tile ID**: Press a number + [TILE/VM] key.
3. Select either <Screen/PTZ> or <Mouse> mode for a device to use.

### Change Layout
1. Press the <Change layout> button.
   - When controlling the SSM, the screen mode will be disabled.
2. Enter the number of the layout to change.
3. Press the <Apply> button and the layout will be changed as configured.
Recoring
Starts or stops recording.

Search
Displays a playback video.

Snapshot
Saves a captured image.
- The image will be saved on the PC where the SSM is installed.

Alarm OFF
Turns off an event alarm.

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies of this license, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change all versions of a program along with the rest of life's free software. The GPL is also designed to let you scientifically modify the specific pieces which cause your problems, without an endless chain of people having to patch everything.

We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program non-free. We restrict the terms of version 2 of this License to exclude patents; the present version does not.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the program or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

In our summary expression of the GPL's terms (below), we will call this software "the Program". The terms are chosen to make the simplest case. However, the General Public License has no patent terms on it, nor could we spackle any such terms on it. If you know what they mean, and you have the money and决心, a non-GPL version may well be more appropriate for you.

We wish to make sure that redistributors, who include in the version a modified version, are then considered as having modified it in the same way. A common product could appear to be distributed under GPL when it is really licensed under some other license from a third party. This makes it difficult to do collective development, since the GPL would apply to all of the Project.

Finally, we wish to make sure that the whole Project remains free. If the Program is a collective work, derived from many contributions of many people, the GPL can say "Everyone understands that there is no warranty for this free software. If the program is modified by someone else and passed on, we want its recipients to know that they have the original, so that any problems introduced by others will not reflect on the original authors' reputations."

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION, AND MODIFICATION

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible useful to the public, the best way to achieve this is to make it free software which anyone can redistribute and change under these terms. To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

one line to give the program’s name and an idea of what it does.

Copyright (C)yyu name of author

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts:

Gnomovision version 69.
Copyright (C)yyu year of author

Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type "show w". This is free software, and you are welcome to redistribute it under certain conditions; type "show c" for details.

The hypothetical commands "show w" and "show c" should be considered the complete official general-purpose home pages for GNU GPL notices. They will tell you exactly what your rights are, and how you can exercise them.

The commands "show b" and "show t" should make detailed information about the copyright notices and other legal aspects of the software be displayed obediently, if any are present.

The "copyright" command should be used for the corresponding documentation notices.

The "show c" command should show the appropriate notices for the current code. In the absence of any of these commands, the "copyright" command should show the appropriate notices if any are present.

The "help" command should output all available help commands.

The "exec" command should execute the program.

The "exit" command should exit the program.

The "quit" command should exit the program.

The "version" command should output the version number of the program.

The "about" command should output information about the program.

The "about" command should output information about the program.

The "license" command should output the license used by the program.

The "help" command should output all available help commands.

The "exec" command should execute the program.

The "exit" command should exit the program.

The "quit" command should exit the program.
Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in all ways specified in section 6. Satisfy the above conditions for conveys without respect to whether you received the object code gratis or for a charge; however, note that this requirement does not apply if either (i) the recipient has not received the object code under this License, or (ii) there is no specified designation of place for Conveying the object code.

Convey individual copies of the object code with a copy of the written accompanying notices if the copy contains or carries an equivalent expression of those notices.

Convey the object code in, or embodied in, a physical product (including a physical product designed or manufactured especially for providing access to the object code), as part of a physical product designed or manufactured solely for providing access to the object code, on a terms that require Both the object code and the Corresponding Source of the work from which it is derived are made available under the same terms.

A patent license is "discriminatory" if it does not include within the scope of its terms and condition the coverage of equivalent acts, within the same scope, performed entirely by you for yourself, or with the written permission filed with the relevant responsible person as defined in the notice to accordance with section 6 of this License, and thus are outside the scope of section 10 of this License.

In the case that the Corresponding Source is in a physical medium such as a CD-ROM, You should provide a means of recovering the Corresponding Source from that physical medium. This means must be reasonably effective for the normal way in which such physical mediums are recovered. This means must satisfactorily accomplish the purposes of section 6 if and to the extent that is reasonable under the circumstances.

Provide a means of running the Corresponding Source on a term that you have the right to convey, on a basis consistent with section 6, to run the Corresponding Source.

Provide a means of running, reproducing, and conveying the work or a work derived from the work using, selling, offering for sale, or importing the work or such a work.

Notwithstanding any other provision of this License, you have permission to propagate a covered work without permission from the copyright holder, if, or to the extent that, your right to so do is derived from a prior version of this License and the prior version was accompanied by a notice stating that this License applies to the Corresponding Source of the work, in terms equivalent or identical to this section and without any additional terms added.

The Corresponding Source must consist of a human-readable copy of the Corresponding Source.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may also make available an unmodified copy of this License, and copy the License's notices, along with the Corresponding Source of the work.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.

You may not propagate or modify a covered work except as expressly provided under this License. Any other propagation or modification is prohibited if it would, or would otherwise be inconsistent with section 10.
EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU (AND NOT AN ADVISOR, DEVELOPER, OR CORRECTOR) ARE RESPONSIBLE FOR THE COST OF ALL NECESSARY REPAIRS, CORRECTION OR REPAIR.

16. Limitation of Liability.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR DISTRIBUTES THE PROGRAM AS PERMITTED BELOW, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

17. Interpretation of Sections 15 and 16.

If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability can be given only under local law of the user's jurisdiction, in which case the express warranties and assumptions of liability stated above operate instead of this disclaimer.

END OF TERMS AND CONDITIONS

GNU LESSER GENERAL PUBLIC LICENSE

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also serves as the license for the Gnulibrary Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. The GNU General Public License, Free Software Foundation’s license for the GNU libraries, is designed to assure that you, the user, can share and change all parts of the libraries, besides just the ones the library authors changed.

GNU Lesser General Public License

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This is the first released version of the Lesser GPL. It also serves as the license for the GNU library Public License, version 2, hence the version number 2.1.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. The GNU General Public License, Free Software Foundation’s license for the GNU libraries, is designed to assure that you, the user, can share and change all parts of the libraries, besides just the ones the library authors changed.

GNU LESSER GENERAL PUBLIC LICENSE

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This is the first released version of the Lesser GPL. It also serves as the license for the GNU library Public License, version 2, hence the version number 2.1.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. The GNU General Public License, Free Software Foundation’s license for the GNU libraries, is designed to assure that you, the user, can share and change all parts of the libraries, besides just the ones the library authors changed.
c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6.a, above, for a charge no more than the cost of performing this distribution.
d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.
e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the “work that uses the Library” must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:
a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.
b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients’ exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or any other infringement (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

End of TERMS and CONDITIONS

END OF TERMS and CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the “copyright” line and a pointer to where the full notice is found, one line to give the library's name and an idea of what it does.

Copyright (C) year name of author

This file is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

This Library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1231 USA.

NO WARRANTY

THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Hanwha Techwin cares for the environment at all product manufacturing stages, and is taking measures to provide customers with more environmentally friendly products. The Eco mark represents Hanwha Techwin's devotion to creating environmentally friendly products, and indicates that the product satisfies the EU RoHS Directive.

**Correct Disposal of This Product** (Waste Electrical & Electronic Equipment)
(Applicable in the European Union and other European countries with separate collection systems)

This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.
